

VOLUME 31, 1999

LIST OF CONTENTS

Number 1

J. Flanz and H.-G. Schecker	1	Categorization and combination of safety-related data for quantitative risk assessments in screening methods
K. Lindqvist, L. Schelp and T. Timpka	19	Home injuries in a Swedish municipality—consequences and costs
M. Lortie and P. Rizzo	31	The classification of accident data
N. Monnery	59	The costs of accidents and work-related ill-health to a cheque clearing department of a financial services organisation
A. Nicholson	71	Analysis of spatial distributions of accidents
L.H. Goossens	93	Recommendations of the Workshop on Home Safety and Universal Design held in Amsterdam, Netherlands, 16 May 1998

Number 2

<i>Review</i>		
S. Leclercq	95	The prevention of slipping accidents: a review and discussion of work related to the methodology of measuring slip resistance
E. Graat, C. Midden and P. Bockholt	127	Complex evacuation; effects of motivation level and slope of stairs on emergency egress time in a sports stadium
S. Taylor-Adams, C. Vincent and N. Stanhope	143	Applying human factors methods to the investigation and analysis of clinical adverse events
H.S. Shannon, L.S. Robson and S.J. Guastello	161	Methodological criteria for evaluating occupational safety intervention research
A.R. Hale	181	Announcement

Number 3

<i>Review</i>		
K. Lindqvist, L. Schelp and T. Timpka	183	Gender aspects of work-related injuries in a Swedish municipality
M. St-Vincent, C. Tellier and T. Petitjean-Roget	197	Accidents that occurred in three hospitals in one year
X. Cuny and M. Lejeune	213	Occupational risks and the value and modelling of a measurement of severity
B. Alteren	231	Implementation and evaluation of the Safety Element Method at four mining sites
A.R. Hale	265	Announcement
